Longevity evidence across human-anchored homolog mappings

a Mapping coverage

b Cross-species recurrence

c Human anchors with broad model-species evidence

	Yeast	Worm	Fly	Mouse
IGF1R	–	A	A	A
INSR	–	A	A	A
MSRA	P	–	P	P
MTOR	A	A	A	–
PRDX1	–	P	P	P
SLC13A1	–	A	A	A
SOD1	P	A	P	–
SOD2	P	–	P	P
TXN	–	P	P	P

P Pro-longevity A Anti-longevity M Mixed – No directional evidence

Human anchors overlap; shared mapping does not establish conserved function.
